Deep Sky Derelicts - Station Life With License Code

The Blackout Club is a first-person co-op horror game centered around a group of teenagers investigating a mysterious secret. The source is another world, another plane, in the deepest place that we know about. Each night, everyone in town gets out of bed and sleepwalks. In the morning, they wake up with no recollection of what happened or where they were. But that is when something else starts to happen. Something others cannot see. Thrown into a long-held society without a memory, these teens soon find themselves joining a club to try and solve this unexplained phenomenon. But these were the adults, they say that it isn't real. So, taking matters into their own hands, they form a club - the Blackout Club. And they are just the beginning. Unlike many other horror games, players are not passive witnesses. They have a role to play in their friends' survival. Running from something is not an option. They must find a way to put an end to this nightmare. When the children left the house, the

elders believed that they'd return. They don't. Art and Music The art and sound design are both a big part of the atmosphere. The game has a striking look and feel to it, using elements like trees, details of the environment and even the clothes players wear to give it a sense of realism. If you have any questions or comments about the video, leave them below or email us at: info@thinkrealgames.com. Take Control of a Fateful Suburban Journey. Experience the horror and insanity of a NIGHTMARE THE GRAVEYARD Do you dare to GO BUNGIE? Welcome to The Graveyard, a nightmare world built on modern design principles. Breathe deep while you can. You're trapped in the depths of The Graveyard's mine shafts, and all your life's dreams are fading before your eyes. Soon, there will be no light. THE BURNING WOODS WITHIN THE FOREST. All you need is a light source to find your way to safety. A rusted lantern sits in the middle of an impassable forest. Once you find it, you'll have to decide whether to carry it or hide it. But if you ever do find the way out, there's no getting home - not without a gun and a willingness to run - and even then the wraith menace will hunt you. TRY c9d1549cdd

Spiral is a third-person narratively driven exploration game. It takes place in a world inspired by Bernard Penfield’s life and cognition experiments. The game is set in the years 1974 and is set to an ambient soundtrack including music from Bernard Penfield's time. An adventure in space Bernard Penfield has a rare disorder called Pick’s syndrome, where the brain doesn’t create clear memories. It is not clear what causes the illness or what can cure it. Since he has only a sketchy knowledge of himself, he fears his illness to be life threatening and decides to visit the only known aspect of himself, a capsule suspended in the depths of the ocean. The capsule is made of his own brain tissue and contains the record of his entire life. When Bernard touches the capsule, he feels a strong connection to himself. He understands that he has to explore this as a first step in unlocking his past, and so sets out on a journey to explore the depths of his mind. Bernard has a key to the capsule. He can unlock it, but to do so will mean to become a different person. This game is inspired by the life of Bernard Penfield and the cognitive disorders he has. This game is also inspired by the music of Stephen Penfield and the experiments he carried out in the late 1970’s.

What You Will Experience • Explore the mind of Bernard Penfield, and remember the story of his life • Follow Bernard through a series of memories containing puzzle-like tasks that you will need to solve to help him remember • In-game demo available on the game’s Steam page, in which you will play the first 4 chapters of the game and be able to test it out for free • Featuring a unique soundtrack by singer/songwriter Silviu Tiran, using classical music as inspiration for a theme that is deeply connected to the life of Bernard Penfield • Featuring hand-drawn illustrations and a colouring book.
