KMSPico Activator is the best activator that doesn't require activation keys, Activator for Windows, Office, and Windows KMS is most powerful activator software which can activate multiple Windows and Microsoft Office products.Q: Compare specific values in two tables for equal value I have two tables. "A" has two columns: FieldA FieldB 1 2 2 5 3 7 ... "B" has the same columns but with different values. FieldA FieldB 1 1 3 2 6 2 ... How do I compare "FieldA" for equal values and get the corresponding "FieldB" values? In the table above this would give "FieldB" 1. If I use the code below, the result is NULL. I feel the problem is in the syntax as I'm having trouble finding a solution online. Select * from Table1, Table2 Where Table1.FieldA = Table2.FieldA I'm sure this is a pretty simple question but I'm not really familiar with the syntax.
