\*\*\*\*\* A: Your sub-question, 'Why download MeldaProduction MAudioPlugins 10.15 and not make a mistake?', does have a question mark. Many reasons could have lead you to download the wrong one. A long analysis of the official web page would have identified that your package is not the 'MeldaProduction MAudioPlugins 10.15' which is the one I am talking about. It could also be the case that the wrong one simply does not exist. In that case, you will not be able to install it, as it is missing. To verify if such a package exists, you have to check the page Have a look at the right package name and decide if it matches what you downloaded before. Q: JQuery sidebar fixed - not working HI I have a problem with my sidebar, the sidebar is fixed but when it is empty it goes back and forth. Here is the code /\* Sidebar Toggling \*/ \$(document).ready(function() { \$(".sidebar-trigger").click(function() { \$(".sidebar-content").slideToggle(); return false; }); }); This works fine but if the sidebar has content it wont stay fixed so the sidebar will go back and forth. I added the code below but its still not working if(\$(".sidebar-content").is(":empty")){
